DETAILED OFFICE ACTION

Applicant's response filed on 31 October 2003 is acknowledged and entered.

Currently, claims 61-72 are pending and under consideration.

The declaration filed on 31 October 2003 under 37 CFR 1.131 has been considered but is ineffective to overcome the Ebner reference.

The Ebner reference is a U.S. patent or U.S. patent application publication that *claims* the rejected invention (claims 1-25 of the Ebner reference). Its divisional application US 2003/0092133 A1 is currently pending and claims the same invention. An affidavit or declaration is inappropriate under 37 CFR 1.131(a) when the reference is claiming the same patentable invention, see MPEP § 2306. If the reference and this application are not commonly owned, the reference can only be overcome by establishing priority of invention through interference proceedings. See MPEP Chapter 2300 for information on initiating interference proceedings. If the reference and this application are commonly owned, the patent may be disqualified as prior art by an affidavit or declaration under 37 CFR 1.130. See MPEP § 718.

Withdrawal of Objections and Rejections:

The rejection of claims 61-72 under 35 U.S.C. 102(e) as being anticipated by Gorman et al. (US 6,562,578 B1) is withdrawn in view of applicant's argument.

Rejections Over Prior Art:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

Art Unit: 1646

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

Claims 61-63 and 68-72 remain rejected under 35 U.S.C. 102(e) as being anticipated by Ebner et al., US 2003/0003545, for the reasons set forth in the previous Office Action, paper No. 14, mailed on 25 February 2003, at page 3.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Claims 64-67 remain rejected under 35 U.S.C. 102(e) as anticipated by, or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ebner et al., US 2003/0003545, for the reasons set forth in the previous Office Action, paper No. 14, at page 4.

Applicants argument, filed on 10 March 2003 (paper No. 15) has been fully considered, but is not deemed persuasive for reasons above as the traversal is based on the same ground as that above.

Conclusion:

No claim is allowed.
